

Presentation of

A **W** **W** **M** **P**

ASSOCIATION OF **W**OMEN IN **M**ATHEMATICAL **P**HYSICS

Cristina Caraci
WOMAP 2 - Banff

How we started

- A group of women in Mathematical Physics in 2022 wrote a special edition of Bulletin of IAMP
- Realising that they were facing common problems and situations
- They extended to other women in the community the idea to meet regularly, to support each other and to share experiences (but not only)
- Together with Nezhla and Ana, already involved in similar initiatives (WOMAP), we joined forces and ...
- In March 2023 we founded AWMP

Who we are

Our aim

- To support women in the field of mathematical physics, establishing a network and meeting spaces for them, and promote diversity and equal opportunities for all individuals in mathematical physics.

Our activities

- Reading group
- Coffee meetings
- Events - women in mathematical physics
- Hybrid conferences group
- Mentoring program
- Shaping the initiatives
